How we support you

Unither Pharmaceuticals: Your Partner in Innovative CDMO Solutions

With over 30 years of experience as a global CDMO, we help pharmaceutical companies grow their brands. Our technologies enable line extensions, product differentiation, and patient-friendly formats that improve dosing safety and adherence.

Our mission? To provide you with innovative, sustainable and competitive solutions.

PARTNERING TOGETHER FOR YOUR SUCCESS

Development & Manufacture

End-to-end support from development to clinical and commercial manufacturing, at any scale.

Turnkey Licensing & Dossiers

Turnkey solutions and license sales for developed products.

Co-Development

Co-investing for distribution rights to enable global launches.

Regulatory support

Support in obtaining and maintaining marketing authorizations worldwide.

New Solutions

Single-Dose Injection

Euroject®: A BFS device for safe, scalable, and cost-efficient delivery of vaccines and biologics.

Carragelose Product Portfolio

Red seaweed-based products creating a protective barrier against viruses and allergens.

Technologies

Liquid formulations in single and multi-dose formats — from eye drops, saline solutions, and asthma treatments to oral stick-packs — manufactured across 9 sites in France, the USA, Brazil, and China, and delivered to patients in over 100 countries.
